

# Hadi Ahmed

## Software Engineer

Wapda Town, Lahore | +923484156220 | hadiahmedmah@gmail.com

 <https://www.linkedin.com/in/hadi-ahmed-70a247b1/>

## Profile

As a passionate developer with 6+ years of experience, I have honed my skills in various technologies and programming languages. Currently, I specialize in PHP and possess a strong proficiency in it. My expertise lies in architect and developing full-scale applications, and I have successfully contributed to both startup environments and larger teams working on cohesive applications.

## Professional skills

Javascript	★★★★☆	React	★★★☆☆	Vuejs	★★☆☆☆
HTML & CSS	★★★★★	PHP	★★★★★	Wordpress	★★★★★
Laravel	★★★★★	Codeignitor	★★★★★	Git	★★★★★
Jira, Slack	★★★★★				

## Employment History

### Software Engineer

April 2022 - Current

Netwrix - USA, Remote

As a Software Engineer, I worked extensively with CodeIgniter and React.js, developing full-stack solutions that spanned both front-end and back-end development. My role involved building dynamic, responsive user interfaces with React.js while ensuring smooth, efficient server-side logic using CodeIgniter. Additionally, I gained experience working with Yii and Vue.js to deliver high-performance applications. I contributed to the software development lifecycle, including coding, and testing applications, while collaborating closely with cross-functional teams to deliver scalable and user-friendly solutions.

### Team Lead & Laravel Developer

April 2020 - April 2022

Botsolutions - Islamabad, Pakistan

As a Laravel Developer, I worked primarily on international projects, leading a team of developers to deliver high-quality web applications. My role involved designing and implementing robust back-end systems, optimizing performance, and ensuring seamless integration with third-party services. I guided the team through the development process, providing technical leadership, mentoring junior developers, and ensuring adherence to best practices and project deadlines. Through collaboration with clients and stakeholders, I helped deliver scalable, secure, and efficient solutions that met global standards and user needs.

### Laravel / Wordpress Developer

October 2018 - March 2020

CyberVision International - Islamabad, Pakistan

As a Laravel & WordPress Developer, I worked on a diverse range of semi-government and private sector projects, focusing on building scalable, secure, and high-performance websites and applications. My role involved developing custom features, maintaining existing systems, and optimizing websites for better functionality and user experience. I collaborated with cross-functional teams to deliver tailored solutions, ensuring compliance with industry standards and client requirements while leveraging the strengths of both Laravel and WordPress frameworks.
